DIRECT METALS PROVIDES MATERIALS FOR I-90 FOOTBRIDGE IN CLEVELAND, OHIO

March 27, 2018 – Kennesaw, GA – Direct Metals, an international steel service center with locations in Kennesaw, GA and Waukegan, IL, provided product for the I-90 Footbridge in Cleveland, Ohio.

Direct Metals provided 7,541 square feet of custom cut woven intercrimp wire mesh with a u-edging frame for the I-90 footbridge in Cleveland, Ohio earlier this year. The woven intercrimp wire mesh was framed with u-edging and finished with a powder coated black paint. These wire mesh panels both serve as a safety feature and are architecturally unique.

The purpose of the woven intercrimp wire mesh for the I-90 Footbridge is for public safety and to prevent debris from falling onto oncoming traffic below. Woven intercrimp wire mesh from Direct Metals is perfect for a project like this, as it is extremely versatile, and offers solid construction with low resistance to wind loads.

Founded in 1996, Direct Metals is an ISO 9001:2008 certified company and a leader in industrial and specialty metal products. Direct Metals carries one of the largest inventories in the nation of perforated metal, bar grating, expanded metal, safety grating, fiberglass grating, architectural metals, handrail components and wire mesh products. The company's products are available in carbon steel, stainless steel, aluminum, copper, brass, bronze, fiberglass or galvanized metal.

Direct Metals offers several processing capabilities, including cutting, shearing, sawing, punching, cut-outs, welding, slitting, blanking, burning, fabrication and various special finishes. The company also provides expedient shipping, with orders for in-stock material placed by noon and shipped that same day. Direct Metals has served customers in the United States and world-wide for over 20 years.

To request a quote or place an order, call 1-800-711-4939 or email info@directmetals.com. For an online catalog, visit directmetals.com.
