Case Study

BAR GRATING

Location: Atlanta, GA (near Sweet Auburn Curb Market and Krog Street Market)

General Contractor: Pace Properties, Trammell Crow

Material: 3/16" & 1-1/2" Serrated 7TW4 Galvanized Fabricated Bar Grating Panels & Stair Treads. Bearing Bars are 7/16" on center which is ADA approved and high heel safe for walking traffic.

Product Amount: 57,000 lbs./139 pieces

Application: Access ramp, platforms and stairs connecting the Edgewood Avenue bridge to the Atlanta BeltLine's Eastside Trail

Direct Metals supplied 57,000 lbs. and 139 pieces of 3/16" & 1-1/2" serrated 7TW4 galvanized fabricated bar grating panels as part of Atlanta's Historic Fourth Ward BeltLine project—a new greenspace for the neighborhood to gather. The material was used to create an access ramp, platforms and stairs connecting the Edgewood Avenue bridge to the BeltLine's Eastside Trail. This allows the trail's pedestrians and bicyclists to enter the trail from residences and local eateries on and around Edgewood Avenue. The access ramp and stairs also give pedestrians and bicyclists an alternate route to the popular Sweet Auburn Curb Market and Krog Street Market nearby.
